Global Shell Games Michael G. Findley, Daniel L. Nielson, J. C. Beyond Convergence National Defense University (US), 2017-08-24 The world order built upon the Peace of Westphalia is faltering. State fragility or failure are endemic, with no fewer than one-third of the states in the United Nations earning a high warning-or worse-in the Fragile States Index, and an equal number suffering a decline in sustainability over the past decade.¹ State weakness invites a range of illicit actors, including international terrorists, globally networked insurgents, and transnational criminal organizations (TCOs). The presence and operations of these entities keep states weak and incapable of effective governance, and limit the possibility of fruitful partnerships with the United States and its allies. Illicit organizations and their networks fuel corruption, eroding state legitimacy among the governed, and sowing doubt that the state is a genuine guardian of the public interest. These networks can penetrate the state, leading to state capture, and even criminal sovereignty.² A growing number of weak and corrupt states is creating gaping holes in the global rule-based system of states that we depend on for our security and prosperity. Indeed, the chapters of this book suggest the emergence of a highly adaptive and parasitic alternative ecosystem, based on criminal commerce and extreme violence, with little regard for

what we commonly conceive of as the public interest or the public good. The last 10 years have seen unprecedented growth in interactivity between and among a wide range of illicit networks, as well as the emergence of hybrid organizations that use methods characteristic of both terrorist and criminal groups. In a convergence of interests, terrorist organizations collaborate with cartels, and trafficking organizations collude with insurgents. International terrorist organizations, such as al-Qaeda and Hezbollah, engage energetically in transnational crime to raise funds for their operations. Prominent criminal organizations like Los Zetas in Mexico and D-Company in Pakistan have adopted the symbolic violence of terrorists-the propaganda of the deed-to secure their turf. And networked insurgents, such as the Islamic State of Iraq and the Levant (ISIL), the Revolutionary Armed Forces of Colombia (FARC), and the Liberation Tigers of Tamil Eelam (LTTE), have adopted the techniques of both crime and terror.

Tarzan's Tonsillitis Alfredo Bryce Echenique,2001 From the internationally acclaimed Peruvian writer--winner of the Cervantes Prize, the most prestigious literary award in the Spanish-speaking world--a tragicomic story of improbable, inevitable love. At the center: a couple in love, in exile together and apart. He is Juan Manuel Carpio, a second-generation Peruvian of Native American origins, a middle-class singer-composer. She is Fernanda Maria de la Trinidad del Monte Montes, a polyglot and cultured Salvadoran. Through the mostly epistolary narrative set in 1960s Paris, revolutionary El Salvador, Chile, 1980s California, and London, we follow the thirty-year arc of their relationship. At once cheerful, hopeful, and informed by a serene lack of sentimentality, the narrative--rich with the delights of paradox and hyperbole--sees the couple through disastrous and traumatic marriages to other people; the ups and downs of their respective careers; the inexorable effects of politics on their personal lives; their shifting passions and gradual realization that the truest bond between lovers is a tender, abiding, and respectful friendship.

Local Governance and ICTs in Africa Timothy Mwololo Waema,T. M. Waema,Edith Ofwona Adera,2011-08-11 With case studies from nine African countries this book provides a rich understanding of the status of e-governance in Africa, assesses

the effects of information and communications technologies (ICTs) on local governance, and offers a roadmap for policymakers, decision-makers, and practitioners to implement and evaluate their own e-local governance projects. With governance high on the agenda in Africa, many governments are using ICTs to introduce innovations in their structure, practices, and capacities as well as in the ways they use human capital and deliver services to citizens. However, the potential for e-governance in Africa remains largely unexploited. Progress requires infrastructure improvement, the enactment of appropriate laws and policies, and capacity and content development. This book addresses the lack of evidence on ICTs in local governance in Africa and provides an important collection of studies and analyses on the transformative potential of ICT.

Paper Citizens Kamal Sadiq, 2008-12-02 In this groundbreaking work, Kamal Sadiq reveals that most of the world's illegal immigrants are not migrating directly to the US, but to countries in the vast developing world, where they are able to obtain citizenship papers fairly easily. Sadiq introduces documentary citizenship to explain how paperwork--often falsely obtained--confers citizenship on illegal immigrants. Across the globe, there are literally tens of millions of such illegal immigrants who have assumed the guise of citizens. Who, then, is really a citizen? And what does citizenship mean for most of the world's peoples? Rendered in vivid detail, *Paper Citizens* not only shows how illegal immigrants acquire false papers, but also sheds light on the consequences this will have for global security in the post 9/11 world.

Doing News Framing Analysis II Paul D'Angelo, 2018-05-11 This volume presents original, 'big picture' perspectives on news framing. Each chapter in this volume will feature an individual or team of framing analysts who take a reflective look at their own empirical work. The editors' goals are to identify the influences that determine the use of different theoretical and methodological approaches, and to provide interpretive guides to news framing scholars regarding what news frames are, how they can be observed in news texts, and how framing effects are uncovered and substantiated in cultural, group, and individual sites. *Doing News Framing Analysis II* will continue the work of its predecessor by giving talented framing scholars the space to write about their work and bring readers closer to the framing research project. Chapter 9 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at <http://www.taylorfrancis.com>.

The Handbook of Communication History Peter Simonson, Janice Peck, Robert T Craig, John Jackson, 2013-01-03 The Handbook of Communication History addresses central ideas, social practices, and media of communication as they have developed across time, cultures, and world geographical regions. It attends to both the varieties of communication in world history and the historical investigation of those forms in communication and media studies. The Handbook editors view communication as encompassing patterns, processes, and performances of social interaction, symbolic production, material exchange, institutional formation, social praxis, and discourse. As such, the history of communication cuts across social, cultural, intellectual, political, technological, institutional, and economic history. The volume examines the history of communication history; the history of ideas of communication; the history of communication media; and the history of the field of communication. Readers will explore the history of the object under consideration (relevant practices, media, and ideas), review its manifestations in different regions and cultures (comparative dimensions), and orient toward current thinking and historical research on the topic (current state of the field). As a whole, the volume gathers disparate strands of communication history into one volume, offering an accessible and panoramic view of the development of communication over time and geographical places, and providing a catalyst to further work in communication history.

The Peru Reader Orin Starn, Robin Kirk, Carlos Iván Degregori, 2005-12-14 Sixteenth-century Spanish soldiers described Peru as a land filled with gold and silver, a place of untold wealth. Nineteenth-century travelers wrote of soaring Andean peaks plunging into luxuriant Amazonian canyons of orchids, pythons, and jaguars. The early-twentieth-century American adventurer Hiram Bingham told of the raging rivers and the wild jungles he traversed on his way to rediscovering the “Lost City of the Incas,” Machu Picchu. Seventy years later, news crews from ABC and CBS traveled to Peru to report on merciless terrorists, starving peasants, and Colombian drug runners in the “white gold” rush of the coca trade. As often as not, Peru has been portrayed in broad extremes: as the land of the richest treasures, the bloodiest conquest, the most poignant ballads, and the most violent revolutionaries. This revised and updated second edition of the bestselling Peru Reader offers a deeper understanding of the complex country that lies behind these claims. Unparalleled in scope, the volume covers Peru’s history from its extraordinary pre-Columbian civilizations to its citizens’ twenty-first-century struggles to achieve dignity and justice in a multicultural nation where Andean, African, Amazonian, Asian, and European traditions meet. The collection presents a

vast array of essays, folklore, historical documents, poetry, songs, short stories, autobiographical accounts, and photographs. Works by contemporary Peruvian intellectuals and politicians appear alongside accounts of those whose voices are less often heard—peasants, street vendors, maids, Amazonian Indians, and African-Peruvians. Including some of the most insightful pieces of Western journalism and scholarship about Peru, the selections provide the traveler and specialist alike with a thorough introduction to the country's astonishing past and challenging present.
