American Stories H. W. Brands, T. H. Breen, Ariela J. Gross, Richard Hal Williams, 2024 This is the philosophy behind American Stories: A History of the United States. A single purpose has motivated the creation of this book: to enhance the accessibility of American history and thereby increase students' chances of success. This goal is what brought me to the classroom, and it's one I think I share with you. If American Stories: A History of the United States contributes to achieving this goal, we all—teachers and students—will be the winners--

The Political Spirituality of Cesar Chavez Luis D. Leon, 2014-11-14 The Political Spirituality of Cesar Chavez: Crossing Religious Borders maps and challenges many of the mythologies that surround the late iconic labor leader. Focusing on Chavez's own writings, León argues that La Causa can be fruitfully understood as a quasi-religious movement based on Chavez's charismatic leadership, which he modeled after Martin Luther King Jr. and Gandhi. Chavez recognized that spiritual prophecy, or political spirituality, was the key to disrupting centuries-old dehumanizing narratives that conflated religion with race. Chavez's body became emblematic for Chicano identity and enfolded a living revolution. While there is much debate and truth-seeking around how he is remembered, through investigating the leader's construction of his own public memory, the author probes the meaning of the discrepancies. By refocusing Chavez's life and beliefs into three broad

movements—mythology, prophecy, and religion—León brings us a moral and spiritual agent to match the political leader.

Wetlands Committee on Characterization of Wetlands, Commission on Geosciences, Environment and Resources, Division on Earth and Life Studies, National Research Council, 1995-09-20 Wetlands has become a hot word in the current environmental debate. But what does it signify? In 1991, proposed changes in the legal definitions of wetlands stirred controversy and focused attention on the scientific and economic aspects of their management. This volume explores how to define wetlands. The committee--whose members were drawn from academia, government, business, and the environmental community--builds a rational, scientific basis for delineating wetlands in the landscape and offers recommendations for further action. Wetlands also discusses the diverse hydrological and ecological functions of wetlands, and makes recommendations concerning so-called controversial areas such as permafrost wetlands, riparian ecosystems, irregularly flooded sites, and agricultural wetlands. It presents criteria for identifying wetlands and explores the problems of applying those criteria when there are seasonal changes in water levels. This comprehensive and practical volume will be of interest to environmental scientists and advocates, hydrologists, policymakers, regulators, faculty, researchers, and students of environmental studies.

Both have played a successful role in advancing classic free-market economics and

Below-ground Interactions in Tropical Agroecosystems Meine van Noordwijk, Georg Cadisch, C. K. Ong, 2004 Below-ground interactions are often seen as the 'dark side' of agroecosystems, especially when more than one crop is grown on the same piece of land at the same time. This book aims to review the amount of light the past decade of research has shed on this topic. It also aims to review how far we have come in unravelling the positive and negative aspects of these interactions and how, in dialogue with farmers, we can use the generic principles that are now emerging to look for site-specific solutions.

Their destiny is sealed: they will rot away in a mine, forced into slavery. But Metellus - legate of the Second Augusta Legion, hero of the empire - and his men break free and find shelter at an oasis, where they meet a mysterious, exiled prince. The Romans become the prince's private militia, agreeing to safeguard the prince's journey back to his homeland, Sera Maior, the mythical Kingdom of Silk - China. And so they begin an extraordinary and epic journey through the forests of India, the Himalayan mountains, the deserts of central Asia, all the way to the heart of China - as the very survival of the world's greatest two empires is at stake.
