Computational Intelligence and Informatics Imre J. Rudas, János Fodor, 2010-10-08 The International Symposium of Hungarian Researchers on Computational Intelligence and Informatics celebrated its 10 edition in 2009. This volume contains a careful selection of papers that are based on and are extensions of corresponding lectures presented at the jubilee conference. This annual Symposium was launched by Budapest Tech (previously Budapest Polytechnic) and by the Hungarian Fuzzy Association in 2000, with the aim to bring together Hungarian speaking researchers working on computational intelligence and related topics from all over the world, but with special emphasis on the Central European Region. The Symposium of the 10 jubilee anniversary contained 70 reviewed papers. The growing interests, the enthusiasm of the participants have proved that the Symposium has become an internationally recognized scientific event providing a good platform for the annual meeting of Hungarian researchers. The main subject area called Computational Intelligence includes diverse topics. Therefore, we offer snapshots rather than a full coverage of a small particular subject to the interested reader. This principle is also supported by the common national root of the authors. The book begins with Information Systems and Communication. This part contains papers on graphs of grammars, software and hardware solution for Mojette transformation, statistical intrusion detection, congestion forecast, and 3D-based internet communication and control.

The Weak Send Rocks, The Strong Send Rockets Marek Arnaud, 2012-11 Get a close up and personal view of what it's like to be an international diplomat. Marek Arnaud's account is a dynamic compilation of aphorisms, jokes, one-liners, observations and critiques about war, peace, international issues and the people who control world politics. From the dark

times of the Soviet Union and the troubled Middle East to the sunny beaches of Australia, Arnaud regales the reader with the goings-on of international conferences (including at the United Nations) and a special brand of sometimes politically incorrect jokes that will have you laughing out loud. The sense of humor, rare perceptivity, self-mockery and literary refinement of Marek Arnaud make his piece unique.—Prof. Adam Daniel Rotfeld, Former Minister of Foreign Affairs of Poland With this playful, ironic collection of aphorisms and puns, the author debunks the widespread view that diplomats --the 'striped-pants boys,' according to JFK-- are a class or a species unto themselves.—Amb. Alvaro de Soto, Former Under-Secretary-General of the United Nations This is an unusual publication. It stigmatizes moral weaknesses, such as greed or hypocrisy, and criticizes the prevailing world order (or rather disorder) as well as the abuse of rhetoric.—Dr. Jozef Goldblat, Vice President, Geneva International Peace Research Institute (GIPRI)

Peter's Halakhic Nightmare John R.L. Moxon, 2017-07-20 Did Luke intend Peter's visionary command to eat 'unclean animals' in Acts 10 to suggest the dissolution of the Jewish Law? Whilst scholars have argued over sources, inconsistent redaction and later reception, many have failed to notice here the novel use of a type of transgression anxiety dream. John Moxon shows how by the incorporation of such naturalistic motifs, Luke takes revelation in a new and decidedly psychological direction, probably imitating similar developments in Graeco-Roman biography. If the vision reveals an illegitimate transfer of disgust within an exaggerated halakha of separation, then its target is prejudice and inconsistency, not the Jew-Gentile divide as such, as underlined by the ironic contrast with the pious Cornelius. In this reading, Luke's non-supercessionism is maintained, whilst showing him acutely aware of the kinds of nightmare holding many back from the nascent Gentile mission.

The 57 Bus Dashka Slater, 2017-10-17 The riveting New York Times bestseller and Stonewall Book Award winner that will make you rethink all you know about race, class, gender, crime, and punishment. Artfully, compassionately, and expertly told, Dashka Slater's *The 57 Bus* is a must-read nonfiction book for teens that chronicles the true story of an agender teen who was set on fire by another teen while riding a bus in Oakland, California. Two ends of the same line. Two sides of the same crime. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a Black teen, lived in the economically challenged flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The case garnered international attention, thrusting both teenagers into the spotlight. But in *The 57 Bus*, award-winning journalist Dashka Slater shows that what might at first seem like a simple matter of right and wrong, justice and injustice, victim and criminal, is something more complicated—and far more heartbreaking. Awards and

A Man of Many Parts Barbara Rawlinson, 2006 This comprehensive study of George Gissing's short stories and related non-fiction is essential reading for students of nineteenth-century realism. For the first time readers will be able to follow the development which transformed Gissing's unremarkable early stories into the very individual tales that elevated his work to the vanguard of realistic short fiction. Gissing's American period is notable for its accumulation of themes that were repeatedly refined and adapted for his later work, causality emerging as the dominant voice. On his return to England, shifting political and philosophical beliefs expressed in his non-fiction had a vital impact on his second phase of short fiction, and the part played by realism in the author's short stories and his writings on Charles Dickens added further dimensions to his work as a whole. By the final phase of Gissing's remarkable development, it is evident that his interest in the concept of causality as the major force in his short work had been replaced by a more challenging preoccupation with the human psyche. This introduced philosophical, sociological and psychological dimensions to Gissing's work that established him in the field of short fiction as a leading exponent of late nineteenth-century realism

Embers of Hope Dodge Merrin, 2020-06-06 His world lies in the hands of tyrants, and his family is dead or estranged, but Leon Tyquese has not lost hope. He believes in liberty and justice for all people, and that the struggle for such things should never be given up. There is nothing that will stop him from fighting those who destroy others in the name of their own glory. He will be joined by his pirate brother, and together they will build something new in the spirit of the old. One hundred years of war finally ended in victory for Max Canza and the empire he serves. Centuries old goals are at last within their grasp, and he can see the time when they will lead humanity into a bright and prosperous future. There are always those who resist progress in favor of their own selfish desires, but he will not let anything stop him. Their two nations have known nothing but anger and hate towards one another, and they remember nothing else. Now their conflict spirals out of control and threatens all the nations no matter their own beliefs. The time is quickly approaching when everyone will have to choose a side or have

one chosen for them, and peace will be nothing but a distant memory. As the human race seems intent on destroying itself, other powers long hidden perceive their time has come and make their move. Their power is far beyond what anyone has ever encountered, and if any of them are to survive, they will have to work together. Hope is fading, but even the smallest ember can spark the brightest flame.

Call to Teacher Leadership Sally J. Zepeda,R. Stewart Mayers,Brad Benson,2013-09-27 The Call to Teacher Leadership demonstrates the many ways teachers can be leaders without having to opt out of the classroom full-time. It examines formal leadership positions – instructional coordinators, lead teachers, department chairs, etc. – as well as informal leadership roles – nurturing colleagues, supporting the instructional program, participating in decision making, etc. With practical examples and case studies, this book provides details about how teachers have participated in the leadership of their schools and districts. Examples come from elementary, middle, and high schools across the country.

Lord, Help My Unbelief Michael Rogness,2009-01-01 The secular, scientific world challenges faith in many ways. Many people have left the Christian church in disappointment. Yet in the midst of this complicated world, many people feel a deep hunger for spiritual depth and experience. Where does faith come from? How does a person get faith? How can doubts be surmounted? How does a person experience the presence of God in daily life? After countless conversations with persons searching for faith, the author summarizes the questions people have about faith and the church. Faith is part of everyday life and not an opposite of science. He proposes ways to experience the living presence of God in their lives. Faith is not simply believing in creeds. It is a trust, which results in vibrant living.
