**The Future of the Non-Proliferation Treaty** Darryl Howlett, John Simpson, 2016-07-27 In 1995 a Conference is to be convened to review and extend the Treaty on the NonProliferation of Nuclear Weapons (NPT). The Future of the NPT brings together a distinguished group of individuals, including the elected President of the 1995 NPT Conference, to analyse four crucial agenda areas relevant to the Conference: the preConference activities to be undertaken by both States Parties and the Conference Secretariat; those security issues that relate to a review of the treaty, such as nuclear disarmament and security assurances; peaceful uses and verification questions; and regional issues. With nuclear nonproliferation currently occupying a prominent position on the international security agenda, the 1995 Conference offers a unique opportunity for a constructive discussion on these areas and it is hoped that this volume will provide a contribution to that end.

**We Are Our Language** Barbra A. Meek, 2011-01-15 For many communities around the world, the revitalization or at least the preservation of an indigenous language is a pressing concern. Understanding the issue involves far more than compiling simple usage statistics or documenting the grammar of a tongue—it requires examining the social practices and philosophies that affect indigenous language survival. In presenting the case of Kaska, an endangered language in an Athabascan community in the Yukon, Barbra A. Meek asserts that language revitalization requires more than just linguistic rehabilitation; it demands a social transformation. The process must mend rips and tears in the social fabric of the language community that result from an enduring colonial history focused on termination. These “disjunctures” include government policies conflicting with community goals, widely varying teaching methods and generational viewpoints, and even clashing ideologies within the language community. This book provides a detailed investigation of language revitalization based on more than two years of active participation in local language renewal efforts. Each chapter focuses on a different dimension, such as spelling and expertise, conversation and social status, family practices, and bureaucratic involvement in local language choices. Each situation illustrates the balance between the desire for linguistic continuity and the reality of disruption. *We Are Our Language* reveals the subtle ways in which different conceptions and practices—historical, material, and interactional—can variably affect the state of an indigenous language, and it offers a critical step toward redefining success and achieving revitalization.

**Plants and Organelles** Edwin J. Atencio, Howard S. Bilofsky, June Bossinger, 2014-05-10 Nucleotide Sequences 1986/1987, Volume IV: Plants and Organelles presents data that reflect the information found in GenBank Release 44.0 of August 1986. This book provides information pertinent to the unique international collaboration between two leading nucleotide sequence data libraries, one based in Europe and one in the United States. Organized into two sections, this volume begins with an overview of the sequences, some basic identifying information, and some of the biological annotations. This text then discusses the EMBL Nucleotide Sequence Data Library, an international center of fundamental research with its main focus in the fields of cell biology, molecular structures, instrumentation, and differentiation. This book discusses as well the GenBank database established in 1982 by the National Institute of General Medical Sciences of the U.S National Institutes of Health. This book is a valuable resource for molecular biologists and other investigators collecting the large number of reported DNA and RNA sequences and making them available in computer-readable form.

*Irish vs. Yankees* James W. Sanders, 2018-02-02 Boston entered the twentieth century as an Irish Catholic city, no longer the Yankee town of its Puritan past. The dominance of the Irish Catholic population, swelled by the potato famine masses, gave it political control of the city, and significantly, control of its public schools. Unlike in other American cities, Boston Catholics had little need for a large or influential parochial system: they had the School Committee, school principals, and the teachers. In *Irish vs. Yankees*, James W. Sanders takes a new look at this critical period in the development of Boston schools, from 1822, when Boston officially became a city, to the Second World War. Framing the discussion around the Catholic hierarchy, he considers the interplay of social forces in the nineteenth and early twentieth centuries that led to the political rise of the Irish Catholic over the native Brahmin and the way this development shaped Boston's schools. From Bishop John Fitzpatrick to Boston College, Sanders introduces a cast of colorful characters and institutions to this tale of the education and religion in one of America's most prominent cities.

Pardo-Maurer, 1990-11-30 Former political officer for the Nicaraguan Resistance (the contras), Rogelio Pardo-Maurer shares his experiences of the factional dynamics of that group in this provocative new study. Providing an historical account of internal politics in the Resistance, Pardo-Maurer analyzes the principle factions or issues of contention, devoting special attention to the influence of the U.S. political process on Resistance policy. The book provides an intriguing inside look at one of the most controversial resistance movements of the 20th century. Pardo-Maurer follows the internal dynamics of the contras from the exposure of Oliver North to the signing of the ceasefire at Sapoá, the period in which he served as political assistant to the representative of the Resistance in Washington, DC.

**The Popes and European Revolution** Owen Chadwick, 1980-03-05 Owen Chadwick describes the effects of the European Revolution of 1789 to 1815 on the Papacy, and compares Catholic Church of the ancient régime to that of the early nineteenth century. The book shows how strongly the Counter-Reformation still worked in Italy during the eighteenth century; how it was the constitutional development of states, rather than the incoming of new ideas, which forced change; how traditional was the Catholic world even in the age of the Enlightenment. It shows reform at work, and the fierce pressure on the Papacy marked first in the forced suppression of the Jesuits and afterwards in the kidnapping of two successive Popes by French governments. It shows how revolution in Italy affected church structures and brought on peasant war, yet encouraged, in a radical form, some improvements of church life towards which the earlier reformers had striven. Finally, it shows the political swing of the Restoration after the fall of Napoleon, the way in which the Church was already associated with the political right, the great difficulties of restoring church life after the evolutionary years, and the persistence, half unnoticed, of the earlier reforming ideas among Catholics.
